- ☐ Other (please specify)

Project proposal description

Description of the project idea

Borshchiv Urban Territorial Community is looking for a partner to implement the project to complete the 2nd phase of the construction of the Borshchiv wastewater treatment plant. This project is extremely relevant for the community and its implementation will directly affect the improvement of the environmental situation and local economic development. The community has 2 partner municipalities in the Republic of Poland, but they are not included in the list of program participant territories. In previous years, we managed to build the first stage of treatment facilities and raise part of the funds for the implementation of the second stage in 2026. The community consists of 26 settlements, the population is 28,537 residents. Our municipality is actively developing, a number of enterprises with foreign investments operate on its territory.

Expected role of the partner institution

Our municipality guarantees responsible cooperation, direct participation at all stages of the project implementation, is ready to transfer the main role to the partner and be a secondary partner. The community is open to cooperation and will provide all necessary additional information as needed.

✓ **STATEMENT**

I declare that I have provided my personal data voluntarily and that I have read the information clause below before giving my consent.

I consent to the processing of my personal data for the purpose of searching for partners for the preparation of projects under the Interreg Poland-Ukraine Program 2021-2027.
