- ☐ Other (please specify).....

Project proposal description

Description of the project idea

«Reconstruction of the premises for the security center»

The project involves the creation of a modern multifunctional Security Center by reconstructing the premises of the Starostat to ensure effective response to emergency situations.

Expected role of the partner institution

The role of the partner within the project implementation is as a subject of cooperation, providing organizational and methodological, advisory and, if necessary, resource support. Cooperation with the partner is aimed at increasing the efficiency of project implementation, ensuring its compliance with established standards and achieving sustainable results of the security center's functioning. In order to ensure long-term and effective cooperation, we hope to conclude a Memorandum of Cooperation, which will determine the main areas of interaction and responsibilities of the parties, as well as create a foundation and improve the quality of services

provided to the population. We expect that such cooperation will contribute to expanding the partnership, attracting additional resources, and increasing the efficiency of implementing future project initiatives.

✓ **STATEMENT**

I declare that I have provided my personal data voluntarily and that I have read the information clause below before giving my consent.

I consent to the processing of my personal data for the purpose of searching for partners for the preparation of projects under the Interreg Poland-Ukraine Program 2021-2027.
